Profile Summary

A curious mind fueled by innovation and driven by purpose. As a fresher, I bring knowledge along with adaptability, collaboration, and a desire to contribute meaningfully. Ready to grow with every challenge and turn opportunities into impact.

Education

Vel Tech Rangarajan Dr. Sagunthala R&D Institute of Science and Technology, Chennai, TN	2023 – 2027
B.Tech in Computer Science and Engineering	CGPA: 8.7
Sri Chaitanya Junior College, Vijayawada, AP	2021 – 2023
Board of Intermediate Education	Percentage: 87.8%
Dr. K.K.R's Gowtham School, Sathupalli, Telangana	2011 – 2021
Telangana Board of Secondary Education	CGPA: 10

Technical Skills

Programming: Java, C, Python, Data Structures Using Java
Web Development: HTML, CSS, Node.js
Database: MySQL, MongoDB
Tools: GitHub, VS Code, LaTeX
Soft Skills: Analytical Thinking, Adaptable, Good Listener, Team-Driven

Experience

Society of IT Engineers & Researchers (SITER)	07/2025 – 10/2025
Full Stack SEO Learning Intern Bergen, Norway	
• Worked remotely on developing MEFIT, a full-stack web application for fitness tracking, implementing user authentication, workout management, and database integration to ensure smooth user experience and data handling.	
Jyesta Cooperate Entity	06/2025 – 09/2025
Artificial Intelligence Intern Bangalore, KA	
• Gained hands-on experience in AI/ML technologies including supervised & unsupervised learning algorithms and deep learning basics.	

Projects

Leaf Disease Detection (Deep Learning)	10/2024 – 05/2025
Built a Convolutional Neural Network (CNN) model to classify plant leaf diseases.	
GSM Based Modern Accident Alert System	08/2023 – 01/2023
Developed an Arduino-based accident detection system using vibration sensors and GSM module to automatically send emergency alerts.	
MEFIT – Full Stack Web Application	08/2023 – 01/2023
Developed a full-stack fitness web application that allows users to track workouts, manage diet plans, and monitor progress using a responsive UI and secure backend integration.	

Certifications

- DBMS Masters & Fundamentals – Scaler
- Networking and Security – Infosys
- AWS Solutions Architect Associate (2022)
- Sorting Algorithms – DSA in Python
- C & C++ Certification – Globosoft BDPS
- CompTIA IT Fundamentals
- NPTEL Industry 4.0 Appreciation
- Artificial Intelligence – Jyesta Corporate Entity
- Virtualization and Hypervisors Workshop – Vel Tech
- Developed full-stack web applications independently.

Achievements

- Selected as one of 25 students for SITER-NORWAY industrial training program
- Participated in Web Hackathon
