Completed CompTIA IT Fundamentals course: Focus on Operating Systems

NPTEL Industry 4.0 Appreciation

Received NPTEL Certificate of Appreciation in Introduction to Industry .0 and Industrial Internet of Things

Artificial Intelligence, Jyesta Corporate Entity

Completed Training In Jyesta Cooperate Enity

Virtualization and Hypervisors Workshop, Vel Tech

Attended Virtualization and Hypervisors Workshop by Vel Tech focused on advanced OS concepts

🏠 CO-CURRICULAR ACTIVITIES

Web Development Hackathon

07/2025

Arts&Drama Club In VelTech, Member

📁 PROJECTS

Leaf Disease Detection, Leaf Disease Detection - Deep Learning

10/2024 – 05/2025

- Built using deep learning model (Convolutional Neural Networks, CNNs) to classify leaf diseases

GSM Based Modern Accident Alert System,

Arduino Based Vehicle Accident Alert System

08/2023 – 01/2023

- This project is a smart accident detection and alert system designed to improve road safety and enable rapid emergency response in case of vehicle collisions. It uses an Arduino microcontroller, vibration/crash sensors, and a GSM module to automatically detect an accident and send an immediate alert message to predefined emergency contacts

Emergency Light Power Supply Interface,

Emergency Light - Power Supply Interface

08/2023 – 01/2023

- An emergency light power supply interface manages how the emergency light system is powered, charged, and activated during a power failure

🔗 STRENGTHS

Analytical Thinking, Adaptable, Good listener, Team-Driven
