PROFESSIONAL SUMMARY

Enthusiastic AI ML student skilled in Python and Full Stack, with a passion for solving real-world problems.

EDUCATION

B.Tech., Artificial Intelligence Machine Learning	2023–Present
Vel Tech R&D Institute of Science and Technology, Chennai CGPA: 8.8	
Intermediate (MPC)	2021–2023
Viswasai Junior College, Andhra Pradesh CGPA: 8.87	
Secondary School Certificate	2020–2021
Sri Chaitanya Techno School CGPA: 10	

SKILLS

- **Technical:** Python, Java, SQL, JavaScript, spring Boot, DSA
- **Soft Skills:** Communication, Team work, Quick Learner
- **Languages:** Telugu, Hindi, English

PROJECTS

Smart Job Management System	Jan–may 2026
Developed a web-based job portal for recruiters and job seekers with features like job posting, job application, and application tracking using Java, Spring Boot, MySQL, HTML, CSS, and JavaScript.	
AI Powered Cold & Flu Trend Forecasting System — Australia	Aug–Nov 2025
Developed a predictive analytics system to support pharmaceutical planning using real-world seasonal flu trends and data-driven insights.	
Blogging Website (Full Stack)	Jun–Jul 2025
Built a secure and responsive blog platform integrating authentication, CRUD functions, and MySQL-based content management.	
AI-Enhanced Byzantine Fault Tolerance in Blockchain	Sep–Nov 2025
Applied ML-based anomaly detection to strengthen BFT consensus, reducing fault propagation and enhancing blockchain resilience.	

CERTIFICATES

- Industry 4.0 and IIoT — **NPTEL**
- Introduction to Blockchain + ChatGPT — **Udemy**
- Artificial Intelligence — **EdiGlobe**
- Web Developer - **Infinity Connects Media**
- Cloud Coumpting — **NPTEL**

ACHIEVEMENTS

- Published an IEEE paper titled “An Empirical Evaluation of Transformer-Based LLMs for Domain-Aware Text Generation,” analyzing the performance of transformer-based large language models across specialized domains.

AREAS OF INTEREST

- Artificial Intelligence & Machine Learning
- Databases and Backend Engineering
- Web & Mobile Application Development
